WORK EXPERIENCE

Hoffi	Cardiff, Wales	October 2020 - April 2025
--------------	-----------------------	----------------------------------

Front-end Drupal Developer

- Developed custom drupal themes with priority to responsiveness and accessibility; enhancing user engagement.
- Standardised code practices; created reusable code boosting efficiency and minimised cost.
- Extended site functionality via integration of contributed modules, external JS libraries and third-party APIs.
- Developed custom features via JavaScript and custom modules to meet client-specific demands.
- Debugged code issues improving project stability.
- Conducted several CMS upgrades from D8 to D11, maintaining and extending project lifecycles.
- Conducted project migrations between Wordpress to Drupal with clients that have existing projects.
- Fulfilled accessibility testing in compliance with W3C standards (WCAG 2.2).
- Led pre-project analysis and technical assessments on a number of projects taking full accountability.

PROJECTS

Digital Public Services Wales - *digitalpublicservices.gov.wales*

- Migrated existing Wordpress project to Drupal, improved handling of bilingual content.
- Developed a custom module to automate the deletion of entities based on lapsed dates of event/course contents.
- Integrated Zoom API automating the creation of online sessions based on information from event/course contents.
- Built in accordance with the Welsh Government's GEL UI design system, placing emphasis on accessibility and design consistency.

Creative Culture Education - *creativitycultureeducation.org*

- Built a custom feature using JS that pins the location of partner content on a map and displays info on click.
- Integrated a mailing system and developed a custom email template providing admins a streamlined way to communicate and manage users.

Universities Wales - *uniswales.ac.uk*

- Developed a custom module that sets a custom theme for specific sections of the site based on content url.
- Extended functionality with integration of external JS libraries, Masonry and Owl Carousel improving user experience.

Bextra Cymru - *bextra.cymru*

- Welsh first, bilingual site - Developed with great emphasis on accurate translations to provide a good experience to welsh-first users.

EDUCATION

University of the West of England - Computer Science, BSc

July 2019
